County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works
Jeff Werst, Design Engineer
Eric Laurie, Project Manager

VIA: Dave Flynn, Deputy Director of Public Works

DATE: 7/23/2013

SUBJECT: Letter transmitting plans and specifications (Clerk's File) for Oklahoma Avenue Sewer Line Replacement, County Operations Center, for Board approval and advertisement for construction bids. The recommended bid opening date is Thursday, August 22, 2013. District 2.

RECOMMENDATION

In accordance with applicable State Law, it is our recommendation that your Honorable Board:

1. Approve the project and adopt the plans and specifications for the construction of Oklahoma Avenue Sewer Line Replacement, County Operations Center, CA, Contract No. 350102; and
2. Authorize the contract to be advertised for construction bids. The recommended bid opening date is Thursday, August 22, 2013; and
3. Provide the Public Works Director, or his designee, the discretion to extend the bid opening date to a date deemed more appropriate by the Director or his designee, so long as any such extension is in compliance with all applicable laws.

DISCUSSION

An existing 8-inch sewer line in Oklahoma Avenue at the County Operations Center experiences frequent operational problems and is in need of replacement. Soil settlement has caused sags to develop in several areas of the line. The sags result in the build-up of debris and the formation of cracks in the line which leads to infiltration into the sewer. Roots find their way into the cracks and further contribute to debris build-up and the blockage of flow.

Operators have to clean the line on a regular basis. Infiltration adds to the volume of water needing to be treated by the California Men's Colony (CMC) wastewater treatment plant. Both results add unnecessary costs to the normal operations budget.

This project consists of replacing approximately 600 feet of 8-inch sewer line in Oklahoma Avenue, as well as three sewer manholes and one service lateral. Replacement of the line will significantly reduce infiltration and line blockage, resulting in lower operations and maintenance costs.

OTHER AGENCY INVOLVEMENT/IMPACT

This serves facilities operated and maintained by the Department of General Services. The County Department of General Services was consulted during the design phase of this project and supports the project implementation.

The Categorical Exemption issued by the County Department of Planning and Building to the Public Works Department, is adequate to cover the proposed work. No other agency permits are required for the proposed work.

FINANCIAL CONSIDERATIONS

The \$333,000 of funding for this project was approved in the 2012-13 budget process and is provided via the General Services Agency's Fund Center 200 Maintenance Projects.

RESULTS

Approval of the recommended action will result in the Oklahoma Avenue Sewer Line Replacement Project, Contract 350102, being advertised for construction bids. Construction of the project will contribute to the County goals of maintaining a healthy, safe, and more livable community.
